

WATERS-PIERCE COMPANY WINS

Will Not Be Ousted From the State of Missouri at the Present Time.

ITS FINE OF \$50,000 PAID

INDIANA AND OHIO STANDARD COMPANIES MUST GET OUT.

Jefferson City, Mo., March 9.—The motion by the Standard Oil company of Indiana and the Republic Oil company of Ohio for a rehearing of the ouster suit recently decided against them and for a modification of the judgment were overruled by the Missouri supreme court today.

The position of the Waters-Pierce Oil company was upheld, the motion of the attorney general for an absolute ouster of the Missouri company being denied, the compliance with the court order recently filed by the company approved, and the judgment of the ouster against it being suspended.

The effect of these decisions is to expel the Indiana and Ohio companies from Missouri and to restore to the Waters-Pierce company, 90 per cent of whose stock is held by the Standard Oil company of New Jersey, the right to do business within the state.

No formal opinion in the premises was read, Chief Justice Vallentyne simply announcing the gist of the court's decision. Justices Lamm and Woodson dissented. The Standard Oil interests are expected to appeal from the decision and carry their case to the supreme court of the United States.

Victory for Waters-Pierce.

The decision is considered a great victory for the Waters-Pierce company and incidentally for the minority interests of that concern, who claim to have been making unavailing efforts to free the company from control by the New Jersey corporation. With this object in view they declined to approve the proposition made by the Standard Oil company of Indiana, that that company be allowed to continue business in the state under a trusteeship composed of representatives of the court and the company.

With the judgment of ouster made absolute against the Standard Oil company of Indiana and the Republic Oil company, these concerns must now pay their fines of \$50,000 each and cease business in the state.

Paid the Fine.

The \$50,000 fine assessed against the Waters-Pierce Oil company has been paid. In conjunction with the fine, the Missouri court decreed that the company be reorganized so as to be free from Standard Oil control. There was nothing in the document by which this had been done and on this basis the attorney general moved that the ouster decree be made effective at once.

Opinion of Attorney General.

When informed of the court's motion today Attorney General Noel said: "The supreme court's decision simply states that the Waters-Pierce company is not to be ousted from the state. However, the original judgment of the court will stand against it, so that if it violates the court's decree the state can renew its application for ouster. "The state asked that the court make the ouster decree immediately, as we extended the Waters-Pierce company had not complied with the conditions laid

While the storm was at its height during the night the city experienced the unusual sight of a thunderstorm.

Worst of Season.

Topeka, Kan., March 9.—The heaviest snowstorm of the year prevails here and reports from the railroads indicate that the storm is general. The temperature is about freezing and the snow is wet and heavy. Over eighteen inches of snow fell at Junction City, Kan., the heaviest fall recorded there in years. The electric line between Junction City and Fort Riley is tied up, but railroad traffic has not been seriously interfered with.

The following order was made by the court in relation to the Waters-Pierce company:

"The Waters-Pierce Oil company having tendered into court the amount of the fine assessed upon it by the judgment of this court and having given satisfactory evidence of its purpose heretofore so to conduct its business as not to violate the law of this state in regard to pools, trusts and conspiracies, it is ordered by the court that the clerk of this court receive the money so tendered and pay the same into the state treasury, and it is further ordered that the judgment of this court of the date of Dec. 22, 1908, ousting the Waters-Pierce company of its charter and adjudging all its rights and privileges thereunder forfeited and annulled, be and the same is hereby suspended until otherwise ordered by the court, but the court will retain jurisdiction of the case for the purpose of setting aside and annulling this order or modifying the same if the court should hereafter, on motion of the attorney general, or its own motion, become satisfied that the Waters-Pierce Oil company is at that time or has been conducting its business in a manner forbidden by the laws of this state in relation to pools, trusts and conspiracies."

In their dissenting opinion filed with the order, Justices Woodson and Lamm hold that the Waters-Pierce company has not complied with the court's order to withdraw from the "trust" relation with the other companies.

Care of Lamps.

The bowl of the lamp should be kept full of oil, but when not in use the wick should be turned low to keep the oil from oozing out on the burner. The burners should be cleaned occasionally by boiling them for half an hour in a strong solution of Gold Dust washing powder. Wipe on a cloth and they will be as good as new. To clean the chimneys, wash them in warm water to which has been added a teaspoonful of Gold Dust washing powder and wipe dry on a soft towel; polish with an old newspaper. Lamp chimneys are made more durable if they are put into a pan of cold water and allowed to heat gradually till the water is boiling and left in the water until cold again.

The shaping of the cast and chorus for the Elk's hippodrome and operatic company for next Monday and Tuesday nights at the Salt Lake theatre, is going on rapidly. The plot of the "Elk's Tooth" is clever and some interpolations in a new line have been made by Colonel Harry Brown.

The securing of Mrs. Lizette Thomas Edgewood to fill the bill as prima donna is deemed an assurance of the success of the "Kiss Waltz."
